There seems to be a source to have some details on the church, referring to 1653, the year in which the source to have some details on the church, referring to 1653, the year in which

The architectural scheme has resemblance to another Byzantine church in the prefecture of Lakonia, the church of St. Theodoroi in the village of Manesi.

The church's dimensions (including the sanctuary) is cruciformed, tiled roofed and presented with a white facade.
